

KUZMA 4POINT 14 inch TONEARM

Informative brochure

2015-05

The **4POINT 14** differs from standard 4Point due almost 3 inches longer tube. But this requires different mounting distance and different headshell with different offset angle. It requires 12 inch mounting position on turntable. It will be shown in Munchen 2015 and available from July 1st 2015.

Technical data:

Mass:	2150 gr
Effective length :	355.6 mm (14 inch- 356 mm)
Mounting distance:	291,50 mm(Kuzma cut- 291 mm)
Offset angle:	15.20 degrees
Distance from spindle to horizontal bearing:	344,20 mm
Effective mass:	19 g
VTA adjustment:	yes
Azimuth adjustment:	yes
Bias adjustment:	yes
Vertical damping:	yes
Horizontal damping:	yes
Detachable headshell:	yes (one extra supplied)
Cables:	silver
